

# Mechanical Design WORKSHOP

Design Methodology in Automotive Industry - (I) Injection Molded Parts

for 2<sup>nd</sup> to 4<sup>th</sup> year students

## What are we offering?

- ✓ One course (4h) for everyone;
- ✓ Where? Facultatea de Mecanica, Iasi; amfiteatrul M1
- ✓ When? Saturday, February 22nd, starting 9:00 AM;
- ✓ What do you need? Pencil and pen, paper and the will to learn

Then, for selected students (max. 15 participants)

- ✓ Eight seminar sessions (2 h each, starting 5:00 PM in selected Tuesdays), organized as following: March 3rd, March 10th, March 17th, March 31st, April 7th, April 14th, April 28th, May 12th;
- ✓ Where? Facultatea de Mecanica, Iasi, sala 308

## What you will learn

- ✓ information on the actual design process used in the automotive industry as well as insights from real life projects;
- ✓ specific engineering information (design guidelines);
- ✓ how to perform actual mechanical design tasks with support from experienced designers;

## What you need for seminar sessions

- ✓ laptop with Catia v5 application installed;
